DENTAL EXAM PREFERENCE

Dear Parent / Guardian:

The Pennsylvania Public School Code mandates that all students be given a **dental examination on original entry to school in Pennsylvania and in Pre-K, Kindergarten, 3rd and 7th grades**. It is recommended that your family dentist perform this examination to provide for continuity of your child's health care. However, the school will provide this dental examination if you prefer, or if it is not possible for your family dentist to do so.

Please check your choice below:

DENTAL EXAMINATION

_____ Private Dental Examination

_____ School Dental Examination

NOTE: The school dental exam does not include x-rays, dental repairs or preventative measures.

This Private Exam Form needs to be returned before the first week of school.
